

COVID-19 PROTOCOLS | *Everyone's health & safety is our top priority*

MASKS

Our team members will wear safety-approved masks at all times, changing them at appropriate intervals. Masks are required for guests upon arrival, departure, and moving through the tasting room when not partaking or seated.

GLOVES

Our team will wear gloves at all times, changing them at appropriately safe intervals.

HAND-WASHING

Our team will wash hands at all appropriate intervals of service and time at work (see signs posted), for a minimum of twenty seconds. We ask guests to wash hands and utilize complimentary hand sanitizer (70% ethanol).

CLEANING AND SANITIZATION

We will sanitize every guest area and all applicable surfaces & items after each use. Regular cleaning will take place during the day throughout the tasting room. Restrooms will be sanitized frequently between guests.

DAILY HEALTH SCREENING

Our team is participating in daily logs that include health screenings, temperature records, and assessing schedules. We ask guests to refrain from visiting if they are exhibiting any symptoms, including but not limited to: fever, cough, sore throat and fatigue.

RESERVATIONS: GLASS + BOTTLE SERVICE / TASTINGS

We are welcoming guests in groups of 5 or less to join us by reservation (either online prior to arrival or upon arriving) in order for us to diligently trace if needed and help us manage regulated capacities. We have arranged the tasting room to comply with minimum 6' spacing and ask guests to help us maintain this at all times.

Our Woodinville Tasting Room is glass & bottle service only. Our Walla Walla Tasting Room is tastings + glass & bottle service. The Annex is glass & bottle service only.

SAFETY REVIEWS

We are staying continually updated for new local and national guidelines & safety measures, as well as thoroughly discussing daily operations within our team. We will evolve this document as needed.

Thank you for participating with us in these measures!
